

Dexter H&L 10 Special Operation Backpack Kit

Dexter Hook & Line equipment is proudly manufactured by Quabbin Inc., a U.S. owned and operated company located in Orange, MA. Our components are made of highest quality materials. All pulleys, wedges and alligator clamps are machined out of solid aluminum and steel for unequalled strength and reliability. Compare with Allen Vanguard's HAL SO 01/00, NIC Instrument's HL009500, and EOD Partner's 0200500.
